

Puppy Charter

Petplan has been working with breeders for over 35 years and understand that most breeders want to give their animals the best start in life and take great care to find the right homes for their puppies. Our aim is to provide an ethical, efficient and friendly service, valuable to both breeders and puppy buyers at all times in accordance with good industry practice. The Petplan Breeder Charter outlines our terms of business to help ensure all the breeders that we work with breed and sell puppies responsibly. By activating 4 weeks' free Petplan insurance you agree to abide by this charter and comply with the following:
